INTRODUCTION

The Annual Local Government Indebtedness Report for the fiscal year ending June 30, 2010 has been prepared in three sections, noted below. Local government entities submit reports each year in compliance with NRS 350.013, 354.6025 and NAC 350.010. Terms appearing below are defined in the Glossary.

Part A – Presents the assessed value, general obligation debt limit, outstanding general obligation debt and debt margin for each category of local government entity, pursuant to the statutes governing that entity. For example, the total bonded indebtedness for school districts cannot exceed 15 percent of the assessed value, pursuant to NRS 387.400.

Part B – Presents the overlapping total debt for each entity and the percentage of debt to assessed value.

Part C – Presents a five-year debt requirement projection, including the principal and interest for each type of indebtedness by entity and for each total county, as well as the fiscal year in which final maturity will occur.

GLOSSARY

Assessed Value – Taxable value times the level of assessment, currently thirty-five percent (35%).

General Obligation Debt Limit – The maximum general obligation indebtedness which could be incurred by a local government entity, as prescribed in the Nevada Revised Statute governing the type of entity. For example, school district's general obligation debt limit is 15% of assessed value.

Outstanding General Obligation Debt – The amount in whole dollars, of outstanding general obligation bonded debt as of June 30, 2010.

Debt Margin – The calculated difference between debt limit and outstanding general obligation debt.

TYPES OF INDEBTEDNESS

General Obligation Bonds - Those bonds approved by the voters to be retired solely by an ad valorem tax levy. These bonds are secured by the full faith and credit of the entity.

General Obligation/Revenue Bonds – Bonds issued as general obligations that are repaid in whole or in part from non-ad valorem revenues and/or issues sold as general obligations and additionally secured with pledged revenues.

General Obligation Special Assessment Bonds - Bonds payable from the proceeds of special assessments and additionally secured by the full faith and credit of the local government.

TYPES OF INDEBTEDNESS (continued)

Medium-Term Obligations (more than one year but no more than ten years) – General Obligation Bonds, Negotiable Notes or Lease/Purchase Agreements issued pursuant to NRS 350.087-095.

Revenue Bonds – Bonds that pledge specific revenues for the repayment of the obligation. These revenues are the sole source of repayment, are not backed by the full faith and credit of the government entity, and do not count against the statutory debt limit.

Other Debt:

Other Lease/Purchases – Capital lease debt incurred prior to the law change requiring capital leases to be approved using the medium-term obligation requirements.

Mortgages – Indebtedness for local government acquisition of land & buildings for the entity's use.

Warrants – Instruments issued to pay for goods and services to be repaid from future revenues.

Special Assessment Bonds – Bonds issued to pay for the costs of infrastructure – primarily residential developments. Assessments are made to property owners in the special assessment area and debt service is done by the local government.

Other Debt – Interim debentures and other debt issues not identified in the above categories.
