

# 2019-2020 Tax Expenditure Report

---

Report to the Governor and the Director of the Legislative Counsel Bureau for transmittal to the Legislature and appropriate interim committee or committees of the Legislature: NRS 360.137

Prepared and compiled by the *Nevada Department of Taxation*  
in partnership with:

*Nevada Department of Motor Vehicles*

*Nevada Gaming Control Board*

*Local Governments throughout Nevada*

# Introduction

During the 77th Nevada Legislative Session, Assembly Bill 466 (AB 446) was enacted, requiring the Executive Director of the Department of Taxation to prepare and deliver a report of tax expenditures to the Governor and the Legislature in November of each even-numbered year. This, the fourth edition of the report, covers tax expenditures for the 2019-2020 biennium.

AB 466 was codified as follows:

## **NRS 360.137 Duty of Executive Director to submit tax expenditure report; contents; requests for information.**

1. On or before November 10 of each even-numbered year, the Executive Director shall submit a tax expenditure report to the Governor and the Director of the Legislative Counsel Bureau for transmittal to the Legislature and the appropriate interim committee or committees of the Legislature.
2. The report required by subsection 1 must provide, for each tax expenditure:
  - (a) A description of the tax expenditure;
  - (b) The year in which the tax expenditure was enacted;
  - (c) The purpose for which the tax expenditure was enacted;
  - (d) A summary of any amendments to the tax expenditure since it was enacted;
  - (e) To the extent that pertinent information is available, estimates of:
    - (1) The fiscal impact to this State and local governments of the tax expenditure during each fiscal year of the biennium in which the report is prepared;
    - (2) The number of taxpayers receiving benefit from the tax expenditure; and
    - (3) The revenue that would result from repeal of the tax expenditure; and
  - (f) A statement of:
    - (1) Any pertinent information which is not available to prepare the estimates required by paragraph (e); and
    - (2) The reasons for the unavailability of that information.
3. Each agency, bureau, board, commission, department, division, office and other governmental entity of the State of Nevada, each county treasurer and county assessor and each entity receiving the benefit of a tax expenditure, shall respond fully and appropriately to any request for information made by the Executive Director for use in the report required by this section not later than 30 days after such a request is made, to the extent that the requested information is not confidential, privileged or otherwise protected from disclosure by any provision of state or federal law.
4. As used in this section, "tax expenditure" means any law of this State that exempts, in whole or in part, certain persons, income, goods, services or property from the impact of established taxes, including, without limitation, tax abatements, tax credits, tax deductions, tax deferrals, tax exemptions, tax exclusions, tax subtractions and preferential tax rates.

## Purpose of the Tax Expenditure Report

The purpose of this report is to provide information that will allow the public and policy makers to identify and analyze tax expenditures and to periodically make criteria-based decisions on the efficiency and fairness of existing tax expenditures and whether they should be continued. Tax expenditures provide special benefits to certain individuals or businesses by relieving them of paying a particular tax or a portion of the tax.

The tax expenditure categories that are included in this report, as required by statute are:

- Tax deductions
- Tax abatement
- Tax credits
- Tax deferrals
- Tax exemptions
- Tax exclusions
- Tax subtractions, and
- Preferential tax rates.

## How the Report is Organized

This report has been designed to allow for a quick overview of Nevada's current tax expenditures. It is organized alphabetically by tax type (the taxes that expenditures are associated with). For example, all expenditures associated with Property Tax will be grouped in the "Property Tax" section. The "Property Tax" section can be found by looking alphabetically in the Table of Contents. Additionally, the back of the report contains an index which groups the tax expenditures by category (e.g., deductions, credits, etc.). The online version of the report is a Portable Document Format (PDF) that can be searched using key terms.

With the exception of Commerce Tax deductions, which are combined and attached to the back of this report, each tax expenditure appears on its own page and contains the following information:

Tax Type

The type of tax to which the expenditure applies (e.g., Property Tax).

Expenditure Name

The summary, descriptive name of the tax expenditure.

Category

The category of the expenditure: deduction, abatement, credit, deferral, exemption, exclusion, subtraction, or preferential rate.

Agency

The government agency responsible for administration.

Department (if applicable)

The Department within the agency responsible for administration.

### Description

Brief summary of how the expenditure is intended to apply, drawn from the statute that enacted the expenditure.

### Year Enacted

The year the tax expenditure was enacted into law.

### Sunset Date

The date the tax expenditure is set to expire.

### Purpose

The legislative intent of the expenditure (interpretation of intent is not provided if the intent was not made clear in statute).

### Who Benefits

Where possible, provides information about the beneficiaries of the tax expenditure. This was determined using the number of taxpayers who filed returns for a specific tax type or by using a number derived from analysis of economic data or data provided by sources that implement the expenditure.

### NRS or NAC

The Nevada Revised Statute (NRS) or Nevada Administrative Code (NAC) that governs the tax expenditure.

*All applicable NRS and NAC can be found at <http://www.leg.state.nv.us>.*

### Summary of Amendments

A summary of each time the provision has been amended by the Legislature.

*To see the legislative history, access the online version of the Nevada Revised Statutes and click on the relevant link following the statutory provision. If no link is available, please contact the Nevada Research Library for information on how to conduct legislative history research.*

### Fiscal Year 2019 Expenditures/Fiscal Year 2020 Expenditures

These tables contain information on who benefits from the expenditure, the number of taxpayers receiving the benefit, and the total expenditure amount by fiscal year.

## **Changes from the 2017-18 Expenditure Report**

A table has been added to the end of the report identifying any added, removed, or modified expenditures.

## **Considerations**

The revenue impact of a tax expenditure is intended to measure indirect "spending" through the tax system with respect to that one provision or, alternatively, the amount of relief or subsidy being provided through that provision. The dollar impact is *not* the amount of revenue that could be gained by repealing the tax expenditure. There are four primary reasons for this:

- Many tax expenditures are taken over a period of years and can also be carried forward if there is insufficient tax liability to offset. In these cases, even if the tax expenditure were eliminated, there would remain some unused multi-year and carried-forward tax expenditures that could be claimed over time.
- The estimates do not incorporate behavioral changes that may occur if a tax expenditure were eliminated.
- Each provision is estimated independently. A tax expenditure beneficiary may qualify for a tax reduction under more than one law.
- Government may not be able to collect the full liability for some tax expenditures for administrative reasons.

For these reasons, and because tax expenditures interact with each other and the rest of the tax system, caution should be used when summing the revenue impacts.

Finally, where available, the amount of the expenditure is pulled from the taxpayer-filed returns, which include reporting for the expenditure. If no reporting data is available, in some cases, estimates for certain Sales and Use Tax exemptions were made based on aggregated federal data. As of the date of this report, data for those estimates were not yet available for Fiscal Year 2020. Accordingly, the report does not contain estimates for certain Sales and Use Tax expenditures for Fiscal Year 2020. Additionally, for many tax types, no data are available because the taxpayer is not required to report its exemptions and no reliable data exist to form an estimate as to the value of the expenditure.

If no data were available for the amount of the expenditure, the report data page will state the reason for the unavailability. If the expenditure amount was based on economic estimates, that will be indicated on the report data page.

## Definitions of Expenditure Categories

**Abatement/deferral:** A reduction in the level of tax due by an individual or company for a specific period. Examples of abatement include a decreased tax rate.

**Subtraction:** An amount that can be subtracted before calculating the amount of tax due to the state. An example of this is the collection allowance that is subtracted on the Sales/Use Tax return.

**Credit:** An amount of money that a taxpayer can take as a credit against the amount of tax that is owed to the state. An example of this is the credit for a home office or regional home office for insurance companies in Nevada.

**Deduction:** A deduction from gross income, wages, or revenue that arises due to various types of expenses incurred by a taxpayer. Tax deductions are removed from the tax base and thus

lower the overall tax-expense liability. An example of this is the amount of qualifying healthcare wages that can be deducted from gross wages when calculating the Modified Business Tax.

**Exclusion:** A rule that sets aside certain types of income as nontaxable. There are many types of income that qualify under this rule, such as life insurance death benefit proceeds, child support, welfare and municipal bond income.

**Exemption:** To be free from, or not subject to, taxation by regulators or government entities. A tax exemption may apply to a single or multiple taxation laws, or to a specific location. For example, a bank with only one branch location in a county is exempt from the Bank Excise Tax. If a bank has multiple branches in a county, then one location is exempt from the excise tax.

**Preferential Tax Rate:** Preferential tax treatment by means of different tax rates for the types of businesses that are engaged in business in Nevada.

The expenditure categories can be used interchangeably by definition. For this reason, the category assigned to each expenditure was either found in statute or in a similar expenditure.

### Summary of 2019-2020 Report Findings

In aggregate, there are 264 tax expenditures over 18 tax types. The combined known or estimated expenditure amount for the 2019-20 biennium is **\$7,449,678,045**. The combined amount is composed of **\$3,683,217,725** in expenditures claimed or reported in Fiscal Year 2019, and **\$3,766,460,320** in expenditures in Fiscal Year 2020 (total may differ due to rounding).

Tables and charts detailing these amounts broken out by both expenditure category and by tax type are below.

## Tax Type: Fuel Tax

**Expenditure Name:** Special mobile equipment exemption

**Category:** Exemption

**Agency:** Department of Motor Vehicles

**Division:** Motor Carrier Division/Fuel Industry

**Description:** The sale or use of special fuel for any purpose other than to propel a motor vehicle upon the public highways of Nevada is exempt from the application of the tax imposed by NRS 366.190. The exemption provided in this subsection applies only in those cases where the purchasers or the users of special fuel establish, to the satisfaction of the Department, that the special fuel purchased or used was used for purposes other than to propel a motor vehicle upon the public highways of Nevada.

Special mobile equipment includes every motor vehicle not designed or used primarily for the transportation of persons or property, and only incidentally operated or moved upon a highway. The term includes scoopmobiles, forklifts, ditch-digging apparatus, well-boring apparatus and road construction and maintenance machinery such as asphalt graders, bituminous mixers, bucket loaders, tractors other than truck tractors, leveling graders, finishing machines, motor graders, road rollers, scarifiers, earth-moving carryalls and scrapers, power shovels and draglines, and earth-moving equipment.
