Note: These analytes have been changed from the previous monitoring list. This Department of Taxation monitoring list was updated on June 14, 2019 and represents the pesticide and plant growth regulator (PGR) analytes and action levels for which Independent testing laboratories must test marijuana samples. This IS NOT a list of chemicals approved for use in the cultivation of medical marijuana.

To view a list of chemicals approved for use on medical marijuana, see the Nevada Department of Agriculture website at:
