Subject: Questions on tax law changes

George,

I was referred to you by the Department of Taxation in Las Vegas and have a question. I received the notice of the state law changes and see that the first return and payment is due in August of next year for the period of July 1-June 30th.

A&B's fiscal year end is December 31st.

Question, how does the state monitor a business's income when the fiscal year ends are different?

Thank you for your time. Look forward to hearing from you.
