**REVISED PROPOSED REGULATION OF THE
OFFICE OF ECONOMIC DEVELOPMENT**

LCB File No. R062-22

July 15, 2022

EXPLANATION – Matter in *italics* is new; matter in brackets [~~omitted material~~] is material to be omitted.

AUTHORITY: §§ 1, 2 and 4-9, NRS 360.759; §§ 3 and 10-12, NRS 360.759 and 360.7591.

A REGULATION relating to taxation; setting forth the requirements for calculating the costs of certain tangible personal property that constitute a qualified direct production expenditure; revising the requirements for applying and approving a certificate of eligibility for transferable film tax credits; making various other changes related to transferable film tax credits; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing law establishes a program for the issuance of transferable tax credits by the Office of Economic Development to the production company of a motion picture or other qualified production, based upon qualified direct production expenditures made for the purchase of personal property or services from a Nevada business. (NRS 360.759-360.7594) Existing law requires the Office to adopt regulations governing the issuance of such transferable tax credits. (NRS 360.759)

Existing law provides that if any tangible personal property is acquired by the production company as an asset, the calculation of the costs of the tangible personal property that constitute a qualified direct production expenditure must be performed in the manner prescribed by the Office by regulation. (NRS 360.7591) **Section 3** of this regulation sets forth the manner for calculating such costs.

Existing law authorizes a production company that produces a qualified production in this State to apply to the Office for transferable tax credits for any qualified direct production expenditures and set forth various requirements for a production company to obtain such tax credits. (NRS 360.759) Existing regulations instead refer to a producer applying for and receiving such tax credits. (NAC 360.830-360.865) **Sections 5-12** of this regulation change the term “producer” to “production company” for consistency with the relevant provisions of the Nevada Revised Statutes.

Existing regulations set forth the requirements for obtaining a certificate of eligibility for transferable tax credits, which includes submitting an application to obtain such a certificate. (NAC 360.830) **Section 5** revises the application requirements for obtaining a certificate of eligibility.

Existing regulations set forth the requirements for the Office to evaluate an application for a certificate of eligibility for transferable tax credits, including that the Executive Director of

the Office, or his or her designee, conduct a hearing on the application. Certain notice is provided by the Office not later than 30 days before the hearing. (NAC 360.835) **Section 6** provides instead that certain notice be provided by the Office not later than 10 days before the hearing. **Section 6** also eliminates the requirement that the notice include a copy of the proposed order prepared by the staff of the Office. **Section 6** authorizes, rather than requires, the Office to approve an application if the application meets certain requirements.

Existing regulations require that an applicant for a certificate of eligibility submit an audit of the qualified production not later than 30 days after completion of the qualified production. (NAC 360.840) **Section 7** requires instead that a production company that produces a qualified production for which a certificate of eligibility has been issued submit the audit not later than 270 days after completion of the qualified production unless the Office agrees to extend this period by not more than 90 days. **Sections 5 and 7** move the requirements for such an audit from NAC 360.830 to NAC 360.840 and revise the requirements for such an audit.

Existing regulations require that an application for a certificate of eligibility include a job summary for the qualified production. (NAC 360.830) **Section 7** requires that a production company that produces a qualified production for which a certificate of eligibility has been issued submit to the Office a final job summary for the qualified production and sets forth the requirements for the final job summary.

Existing regulations provide that the Office will determine whether to certify the audit of the qualified production and make a final determination of whether to issue a certificate of transferable tax credits within 14 business days after receipt of the audit and certain other financial data, accountings or information. (NAC 360.845) **Section 8** provides instead that the Office will make these determinations within 60 business days after receipt of the audit and certain other financial data, accountings or information.

Section 10 revises the requirements for calculating the amount of qualified expenditures and production costs that may serve as a basis for transferable tax credits. (NAC 360.855)

Section 11 of this regulation revises the requirements for calculating the amount of qualified expenditures and production costs for wages and salaries that may serve as a basis for transferable tax credits. (NAC 360.860)

Existing regulations authorize the Office to withhold transferable tax credits, in whole or in part, until any pending legal action in this State against a producer or involving a qualified production is resolved. (NAC 360.865) **Section 12** authorizes the Office to also withhold transferable tax credits, in whole or in part, if a production company is found to have: (1) violated any state or local law; or (2) submitted any false statement, representation or certification in any document submitted for the purpose of obtaining transferable tax credits.

Section 2 of this regulation defines the term “certificate of transferable tax credits.”

Section 4 of this regulation makes a conforming change to indicate the placement of **sections 2 and 3** of this regulation in the Nevada Administrative Code.

(b) If the purchase price of the tangible personal property is less than \$10,000, the purchase price less the amount for which the production company sold the tangible personal property.

↪ The production company must submit to the Office satisfactory proof of the purchase price and the amount for which the production company sold the tangible personal property.

5. If, after production of the qualified production, the production company keeps the tangible personal property, the cost of the tangible personal property that constitutes a qualified direct production expenditure is:
