OTP Tax Return Instructions:

Line 1: Enter the total wholesale price of **all products, including premium cigars**, received during the reporting period, including untaxed product and tax paid product purchased from another in-state wholesale dealer who remitted the tax upon receipt. This amount should be the total amount of all purchase invoices for the product received, including premium cigars, during the reporting period. This includes all product received but identified for future out-of-state sales and all product given to a wholesale dealer for free as part of a promotion unless received at a trade show or convention as a sample. Please see page 17 for the definition of "wholesale price".

Wholesale dealers who manufacture OTP are required to report and pay tax when the finished product is sold. "Sold" or "sell" is defined as the transfer, exchange, barter, gift, offer for sale, or distribution for consideration of other tobacco products. The wholesale price is based on the amount the product was sold to their customer for before any reductions or discounts are given. Upon sale, enter the total price of all products sold during the reporting period.

OTP Form #1 must be completed in its entirety. Please see instructions for OTP Form #1 on page 11.

Line 2: Enter the total wholesale price of **all products, excluding premium cigars**, received during the reporting period for which no tax was paid by another in-state licensed wholesale dealer, regardless of whether the product will be sold in-state, out-of-state or has been identified for future out-of-state sales. Wholesale dealers who manufacture OTP should enter the total wholesale price of all products sold during the reporting period. Any product which was previously identified for future out-of-state sales and then is sold in Nevada must be re-reported on this line as a taxable sale and tax must be paid.

OTP Form #1 must be completed in its entirety. Please see instructions for OTP Form #1 on page 11.

Line 3: Enter the total wholesale price of **all products, excluding premium cigars**, sold out-of-state or products set aside and clearly identified for future out-of-state sales.

Total Premium Cigar Tax Due: Total all figures and enter on line 10 of the OTP return.

How to calculate Premium Cigar Tax

With the passage of AB232 in 2023, NRS 370.450 was amended to provide a minimum tax and maximum tax amount due for **each premium cigar**. The new definition reads:

If the other tobacco products are premium cigars, a tax of 30 percent of the wholesale price of those products except that, if 30 percent of the wholesale price of those products is: (1) Greater than 50 cents for each premium cigar, the tax imposed shall be 50 cents for each premium cigar (2) Less than 30 cents for each premium cigar, the tax imposed shall be 30 cents for each premium cigar.

A few examples of the proper amount of tax to be collected are below:

1. If the wholesale price of the premium cigar is less than \$1.00, the tax will be \$0.30
2. If the wholesale price of the premium cigar is more than \$1.67, the tax will be \$0.50
3. If the wholesale price of the premium cigar is more than \$1.00 but less than \$1.67, the tax due will be 30% of the wholesale price.

For a \$35.00 Premium Cigar, the calculation is: $\$35.00 \times 30\% = \10.50 . The tax due is 50 Cents.

- Under the previous definition, the Tax due would be \$10.50, but since the new definition provides a cap of 50 per cigar, the tax due is 50 cents.

For a \$.075 Premium Cigar, the calculation is: $\$0.75 \times 30\% = \0.23 . The tax due would be 30 cents.

- Under the previous definition, the tax due would be \$0.23, but since the new definition provides a minimum tax amount of 30 cents, the tax due is 30 cents.

For a \$1.50 Premium Cigar, the calculation is: $\$1.50 \times 30\% = \0.45 . The Tax due would be 45 cents.

- Since 30% of the \$1.50 cigar is within the 30 cent and 50 cent caps, the tax due is the calculated 30% which in the example is 45 cents.

For a \$100.00 Premium Cigar, the calculation is: $\$100.00 \times 30\% = \30.00 . The tax due would be 50 cents.

- Under the previous definition, the Tax due would be \$30.00, but since the new definition provides a cap of 50 cents per cigar, the tax due is 50 cents.

How to calculate Premium Cigar Tax

With the passage of AB232 in 2023, NRS 370.450 was amended to provide a minimum tax and maximum tax amount due for **each premium cigar**. The new definition reads:

If the other tobacco products are premium cigars, a tax of 30 percent of the wholesale price of those products except that, if 30 percent of the wholesale price of those products is: (1) Greater than 50 cents for each premium cigar, the tax imposed shall be 50 cents for each premium cigar. (2) Less than 30 cents for each premium cigar, the tax imposed shall be 30 cents for each premium cigar.

A few examples of the proper amount of tax to be collected are below:

1. If the wholesale price of the premium cigar is less than \$1.00, the tax will be \$0.30
2. If the wholesale price of the premium cigar is more than \$1.67, the tax will be \$0.50
3. If the wholesale price of the premium cigar is more than \$1.00 but less than \$1.67, the tax due will be 30% of the wholesale price.

For a \$35.00 Premium Cigar, the calculation is: $\$35.00 \times 30\% = \10.50 . The tax due is 50 Cents.

- Under the previous definition, the Tax due would be \$10.50, but since the new definition provides a cap of 50 per cigar, the tax due is 50 cents.

For a \$.075 Premium Cigar, the calculation is: $\$0.75 \times 30\% = \0.23 . The tax due would be 30 cents.

- Under the previous definition, the tax due would be \$0.23, but since the new definition provides a minimum tax amount of 30 cents, the tax due is 30 cents.

For a \$1.50 Premium Cigar, the calculation is: $\$1.50 \times 30\% = \0.45 . The Tax due would be 45 cents.

- Since 30% of the \$1.50 cigar is within the 30 cent and 50 cent caps, the tax due is the calculated 30% which in the example is 45 cents.

For a \$100.00 Premium Cigar, the calculation is: $\$100.00 \times 30\% = \30.00 . The tax due would be 50 cents.

- Under the previous definition, the Tax due would be \$30.00, but since the new definition provides a cap of 50 cents per cigar, the tax due is 50 cents.
