Annual Insurance Premium Return ("IPR")– Industry Notification

The IPR is due **March 16, 2026**, in accordance with **NRS 680B.030**. We are aware of a current system issue that is affecting the application of credits and previously submitted payments. Our team is actively working to correct the problem.

In the meantime, please use the following guidance to ensure your Reconciliation Return is submitted accurately:

- If you have no additional premiums to report, please submit a \$0 return.
- If you have additional premiums to report, please add additional amounts to the IPR return.
- If your reported annual totals are lower than what was previously filed, you must **amend** your quarterly returns (IPT) before submitting your Recon.
- Do not adjust previously filed credits on the IPR. At this time, the Reconciliation Return should only be used to report additional credit, not to correct or replace prior credits.
- The system is currently not recognizing payments submitted with Quarter 1 through Quarter 3 2025 filings on the IPT periods, as the payments are reflected on the IPR. There is no action required from you, the taxpayers currently.
- Please remember that quarterly returns are now based on actuals, and any amendments must reflect accurate, actual premium amounts.
- If you are unable to file either IPR or amended IPT via E-services please email your paper return to premiumtax@tax.state.nv.us and make a Payment" under "Payments and Refunds" on the E-service website (<https://mynvtax.nv.gov/tap/>). This option does not require a login only your account (Ex: IPT or IPR-xxxx-xxxx-xxxx) and allows you to submit payment without creating an additional filing.

We appreciate your patience and cooperation while we work to resolve these system issues.
